

Mini-Lesson Plan

Instructor/Facilitator	Christine Salek	Date	December 3, 2023	
Lesson topic	Discord for Public Libraries			
Audience	Anyone interested in creating and maintaining a Discord server for public libraries			
Learning objective(s)	After this lesson, learners will be able to... <ul style="list-style-type: none"> Describe the basics of creating and maintaining a Discord server, including adding channels and events. Describe different uses for Discord in a public library setting. 			
Differentiation	<ul style="list-style-type: none"> I will provide a brief slide presentation before entering a live demonstration. Discord servers can be about anything — this lesson will go over basics that are not specific to any particular interest. 			
Resources required	<ul style="list-style-type: none"> Computer with internet access (to follow along during Zoom presentation) 			
Total estimated time	8 minutes			
Timing (Duration)	Task name (Briefly - What is the focus of the activity?)	Teaching activity (What are you doing?)	Learning activity (What are learners doing?)	Learning checks (How will you know that learning is taking place?)
3 minutes	Introduction to Discord	Slide presentation about different uses of Discord	Viewing slides	Check-in (two “scale of 1-5” questions)
2 minutes	Creating a channel (live demo)	Explaining Discord channels, adding a voice channel	Contributing channel ideas	Learner contribution
2 minutes	Creating an event (live demo)	Going over how to make an event in Discord	Contributing event information	Learner contribution
1 minute	Debrief & resources	Checking in again, sharing resources	Contributing to check-in	Check-in again
